Munson Medical Center is an approved provider of continuing nursing education by the Wisconsin Nurses Association, an accredited approver by the American Nurses Credentialing Center's Commission on Accreditation.

Planning Committee:

Sheila Falk BSN, RN-BC

Dino Recchia, M.D., F.A.C.C.

Nancy Irish, BSN, RN-BC

Speaker: Dino Recchia, M.D., F.A.C.C.

Director of Education, Munson Heart Center

Vice Chairman, Department of Cardiology

Munson Medical Center

Traverse City, Michigan

Heart disease remains the #1 killer of both men and women alike. There remains a certain amount of confusion regarding gender differences in the diagnosis and treatment of various cardiovascular conditions in women. The matter is made even more complicated by the influence of the popular media in our culture today. Effective nursing care requires a firm foundation based in fact not fiction when it comes to dealing with this important issue.

Nurses play a pivotal role in the care of women with all forms of cardiovascular disease. Their unique position demands they stay current with the many facets of the various diagnostic and treatment regimens now used.

Dr. Recchia will review this sometimes contentious issue and try and separate fact from fiction. He will discuss the different presentations of various heart diseases in women with a focus on how they may differ from men.

Michigan State University-School of Human Medicine,
Michigan Center for Rural Health and
Geriatric Education Center of Michigan Present:

Avoiding Sports Injuries

Jennifer Lyon, DO

**Tuesday
February 10, 2010**

6:00 pm – 7:30 pm

*Presented live via the REMEC
TeleHealth Network from
Munson Community Health
Center (MCHC) Classrooms A & B
550 Munson Avenue
Ground Floor
Traverse City, MI 49684*

Frequency of Sports Injuries

In the United States, about 30 million children and teens participate in some form of organized sports. There are more than 3.5 million injuries each year.

As we age, if we stay active in sports, we are also very prone to injuries. For nearly 77 million baby boomers, sports-related injuries have become the No.2 reason for doctor visits behind the common cold.

Jennifer Lyon, DO

Dr. Jennifer Lyon will present a community program that discusses common types of sports injuries and practical steps that can be taken to avoid having injuries.

Dr. Lyon graduated from Michigan State University College of Osteopathic Medicine and completed a fellowship in Sports Medicine. She practices Family Medicine at the Creekside Clinic in Traverse City.

**Open to the public
Free of charge.**

***Registration is required for participants
attending at MCHC***

Ground Floor
Traverse City, MI 49684*

Self Care During Pregnancy

A positive pregnancy test is life-altering. In an instant your mind is filled with thoughts of baby diapers, sleepless nights, high school proms and wedding days. Unconditional love for your child is already developing. But what do you need to know now, or better yet, before you get pregnant to keep both yourself and your baby healthy while you are pregnant?

A team of obstetrical providers will help you understand the complexities of pre-conception and pregnancy care. They will discuss a variety of topics including: H1N1 prevention and treatment during pregnancy, healthy diet, exercise, caffeine/alcohol/tobacco use, how to manage depression, diabetes, high blood pressure, obesity and hypothyroidism during pregnancy.

David Klee, MD, FAAFP

Dr. Klee and residents Renee Tamlyn, DO, Krissondra Klop, DO, and Heather Kennedy, DO practice at Munson Family Practice Center in Traverse City.

**Open to the public
Free of charge.**
